PTV Headquarters

In the heart of the TechnologyRegion Karlsruhe: The PTV Headquarters.

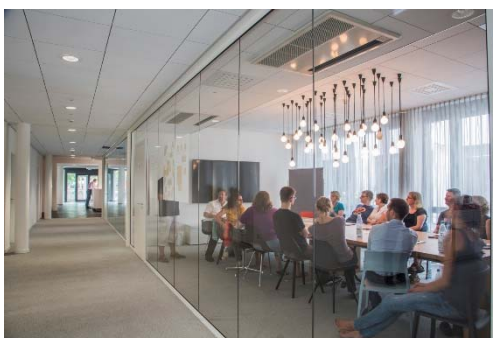

The headquarters in Karlsruhe is the centre of innovation and development.

The mind of movement: PTV Group supports decision-makers and users in taking the right steps for the future.

The PTV community meets and exchanges at the PTV campus

All meeting rooms are all individually designed and offer a perfect working atmosphere.

In the company's gym, PTV employees stay in motion.

Mobility & Transportation

Based on a unique expertise in every facet of mobility, PTV supports smooth traffic flow.

PTV improves mobility and transport - by using world-class software, data and scientific know-how.

The Truck Parking Europe application gives access to the largest European platform for truck parking.

Mobility Lab

The new mobility lab of PTV Group, Karlsruhe is a worldwide unique laboratory for the testing of future mobility scenarios.

New mobility approaches are tested using historic and online data.

PTV Logo & Illustrations

the mind of movement

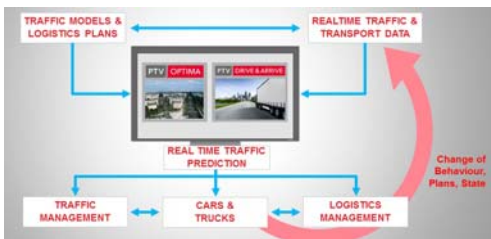

The mind of movement: The PTV Group offers smart software for the future of mobility.

The value chain in transport planning.

The value chain in logistics.

Use of real-time data in traffic and transport logistics.

PTV software is used to develop the pan-European transport model for the EU Commission.

the mind of movement

The new Mobility-as-a-Service (MaaS) Accelerator Program offers a complete portfolio of component technologies for planning MaaS operations all the way to operating and managing MaaS in any given city around the world.
