

Top rated again: PTV Transport Consult GmbH counts among Germany's top consultants

In 2018, PTV is awarded the seal of approval by Brand eins and Statista as one of the best consultancy firms in the field of transport, traffic and logistics

Karlsruhe, 02.05.2018. PTV Transport Consult GmbH has a lot to be excited about this year: Not only is their five-year anniversary coming up, but they can also celebrate their rating among the Best Consultants 2018. In the largest German consulting survey conducted by brand eins Wissen und Statista, the transport specialists were awarded for their outstanding know-how in the fields of transport, traffic and logistics.

The renowned industry report of the business magazine helps bring transparency to the rapidly growing and often confusing market of consulting services. For the report, market researchers scrutinised approx. 16,000 companies. Only those able to convince customers and competitors with their expertise and methodological competence made it onto the list of the best. "We are very proud that we've again received the "Best Consultant" award," says Thomas Ferrero, Managing Director of PTV Transport Consult. "We are the sole provider that specializes in all areas of mobility consulting and we've made a good name for ourselves in the market. This award is the result of the high-value consulting services we offer and, of course, the hard work of our highly-motivated employees".

PTV Transport Consult was spun off from PTV Group in 2012 with the objective of strengthening its profile of the consulting business in the market and has been on a growth course ever since. The company develops studies and concepts for transport, traffic, mobility, energy and environment issues. The range of its services includes transport and traffic planning, traffic technology, traffic management, road safety management, infrastructure safety and protection, transport economics, planning for public transport as well as passenger surveys and revenue distribution. Their projects for national, international, public and private clients are not only handled at the headquarters in Karlsruhe, but also with local expertise in Berlin, Dresden, Düsseldorf, Munich and Stuttgart.

For the current study, the world's leading statistics portal Statista, was commissioned by the magazine "brand eins", to survey approx. 1,500 senior executives in companies that

the mind of movement

outsource mandates to consulting service providers as well as partners and project managers of management consultancies. You can read the full report in "brand eins Consulting" (issue 9, 13 April 2018; 12 Euro). Online kiosk: <https://kiosk.brandeins.de/>

PTV. The Mind of Movement.

PTV Group takes a holistic approach that integrates all aspects of traffic, transport and logistics to create and promote sustainable mobility. Recognised as global market leader, PTV develops intelligent software solutions for transport logistics, traffic planning and traffic management. Thus cities, companies and people save time and money, enhance road safety and minimise the impact on the environment. Based on its unique expertise in every facet of mobility, PTV ensures that people and goods arrive at their destinations safe and sound, and on time.

More than 2,500 cities deploy PTV products. Trips and routes for over one million vehicles are planned with our software. The European transport model, which encompasses all passenger transport and freight movements in Europe, is developed using PTV software. We currently have more than 800 colleagues worldwide committed to driving the high performance of our products. PTV's headquarters, located in the heart of the Karlsruhe technology region, house the company's centre of development and innovation. From here, PTV plans and optimises everything that moves people and goods worldwide – it's the central idea which has accompanied the Group since its foundation in 1979.

The German company PTV Planung Transport Verkehr AG is a member of PTV Group. www.ptvgroup.com.
